PROFESSIONAL SUMMARY

Senior Frontend Developer with 6 years of professional experience building scalable production web applications.

Specialized in React, TypeScript, Next.js, frontend architecture, performance optimization, automated testing, and accessibility.

Experienced in technical leadership, mentoring developers, conducting code reviews, and delivering measurable improvements to production systems.

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Andes Digital Group

January 2023 – Present

- Led the development of a large-scale e-commerce platform using React, Next.js, and TypeScript.
- Designed and maintained more than 45 reusable frontend components.
- Improved Largest Contentful Paint (LCP) from 4.1 seconds to 1.8 seconds.
- Reduced frontend bundle size by 38% through code splitting

and lazy loading.
- Integrated more than 20 REST API endpoints.
- Implemented automated testing using Jest and React Testing Library.
- Increased frontend test coverage from 42% to 87%.
- Established CI/CD workflows using GitHub Actions.
- Implemented WCAG 2.1 AA accessibility improvements.
- Conducted code reviews and mentored three junior developers.
- Worked with Git branching, pull requests, and collaborative GitHub workflows.

Frontend Developer — Pacific Web Technologies

January 2021 – December 2022

- Developed responsive web applications using React and JavaScript ES6+.
- Built reusable HTML5 and CSS3 components.
- Integrated REST APIs and handled asynchronous application data.
- Developed mobile-first layouts.
- Improved page loading performance by optimizing images and JavaScript.
- Collaborated with designers using Figma.
- Participated in code reviews and agile development processes.
