SENIOR FRONTEND DEVELOPER

Company: NovaTech Solutions
Location: Lima, Peru (Hybrid)
Employment: Full-time
Salary: S/ 7,000 – S/ 9,000 monthly
Experience Required: Minimum 4 years

About the position

NovaTech Solutions is looking for an experienced Senior Frontend Developer to lead frontend development, build scalable web applications, and improve the performance and accessibility of our digital products.

The ideal candidate must have strong hands-on experience with React, TypeScript, modern frontend architecture, automated testing, and production applications.

Mandatory requirements

1. Minimum 4 years of professional frontend development experience.
2. Minimum 3 years of professional React experience.
3. Advanced TypeScript knowledge and practical production experience.
4. Strong JavaScript ES6+ knowledge.
5. Advanced HTML5 and CSS3.
6. Experience with Next.js and server-side rendering.
7. Experience integrating REST APIs.
8. Strong Git and GitHub workflow experience.
9. Automated testing using Jest and React Testing Library.
10. Experience with CI/CD pipelines and GitHub Actions.
11. Responsive design and mobile-first development.

12 Web accessibility knowledge, including WCAG 2.1 AA.
13 Performance optimization, including Core Web Vitals.
14 Experience with code reviews and mentoring junior developers.
15 English proficiency at B2 or higher.

Responsibilities

- Lead frontend architecture and development.
- Build reusable and scalable React components.
- Develop production applications using Next.js and TypeScript.
- Integrate REST APIs and handle application state.
- Write and maintain automated tests.
- Improve accessibility and performance.
- Participate in code reviews.
- Mentor junior developers.
- Collaborate with designers, backend engineers, and product managers.

Required application materials

Applicants must submit a CV containing:

- Professional experience with month/year dates.
- Technical skills.
- Education.
- Project examples.
- GitHub or portfolio links.
- English proficiency level.

Important: Candidates who do not meet the mandatory experience and technical requirements will not advance to the technical interview stage.
